What did you like and dislike about Prototype 1?

2 responses

I liked the minimalist style and I disliked the main page. It didn't give much direction.

No labels, also the other bottle looks like a net--> confusing

What did you like and dislike about Prototype 2?

2 responses

I like the use of bottles throughout the app, it matches the concept of the app. I was a bit confused when choosing tags for my recording. There was an option to select a feeling, and add a feeling.

Easy to follow, clear instructions
